

Agent implementation v1 marks

Date: 2026-07-13
Scope: all 114 video agents under [business/video/agents/](#)
Rubric: S1–S6 from [planning/migration/tasks.md](#) (max 100)
Pass rule: true complete only at **100**; v1 does **not** award automatic 100.

Executive summary

Metric	Value
Agents judged	114
Mean score	93.8
True 100 / done	0
near_pass (≥90-ish / research_strong)	49
structural_strong	65
structural_ok	0
partial	0
weak	0

What v1 did

- 1. **Reverted** false [tasks.md](#) fleet-100 / done claims from the fast rubber-stamp run.
- 2. **Re-ran research sections:** replaced cookie-cutter multi-agent boilerplate with **role-family** research mapped to each agent’s migration prompt topics.
- 3. **Re-scored** every agent on S1–S6 with mechanical + critic caps (thin SPEC and weak S3 limit S6).
- 4. **Did not** claim full live arXiv/X/YouTube primary harvest for all 114 — residual listed per row.

Grade legend

Grade	Meaning
near_pass	High total; research stronger; still not auto-100 without live primary sources + human critic
structural_strong	SPEC/ALC/reachability solid; S3 role research still incomplete for full 15
structural_ok	Usable self-contained agent pack materials; depth or research gaps
partial	Materials present but thin or incomplete dimensions
weak	Major gaps

Status legend (tasks.md)

Status	Meaning
structural_pass	S4/S5 and baseline SPEC present; not fleet-done
research_strong	Better S3 integration; still open for true 100
needs_work	Below structural bar for comfortable L2 use

Priority rework queue (v1 residual)

Thin SPECS (<40 KB) — deepen corpus embeds first

order	agent_id	KB	total	gaps
15	video.cameraoperator	28.5	86	S1 depth, S3 role research (live primary sources), S6 critic rigor
59	video.sportsanalyst	28.8	86	S1 depth, S3 role research (live primary sources), S6 critic rigor
35	video.ugccreator	29.0	86	S1 depth, S3 role research (live primary sources), S6 critic rigor
16	video.dronepilot	35.0	92	S1 depth, S3 role research (live primary sources), S6 critic rigor
32	video.musicvideodirector	36.6	92	S1 depth, S3 role research (live primary sources), S6 critic rigor
47	video.foodstylist	37.0	92	S1 depth, S3 role research (live primary sources), S6 critic rigor
53	video.realestatephoto	37.0	92	S1 depth, S3 role research (live primary sources), S6 critic rigor
43	video.medicalillustrator	37.1	92	S1 depth, S3 role research (live primary sources), S6 critic rigor

order	agent_id	KB	total	gaps
51	video.signlanguageinterpreter	37.2	92	S1 depth, S3 role research (live primary sources), S6 critic rigor

S3 < 10 — role-specific live research still required for true 100

Count: 0 / 114

How to reach true 100 (per agent)

- 1. Mine all related `business/video/corpus/**` for the role (unsummarized embeds or sources/).
- 2. Live arXiv + X + YouTube for **this** prompt’s topics; integrate full findings into SPEC.
- 3. Independent S6 critic pass (no open P0).
- 4. Only then set score **100** and status `done` in `tasks.md`.

Tooling
